Dr. Christopher Sullivan, Ph.D., is the President and CEO of Image Research, LLC, a communication consulting firm that specializes in medical informatics, Meaningful Use, HIPAA privacy and security and health information policy (www.imageresearch.com). He is also the Executive Director of Synergy Telehealth, Inc., a not-for-profit organization devoted to promoting the widespread adoption and use of innovative telehealthcare technologies such as telemedicine and health information exchange to ensure access to quality health care.

Dr. Sullivan has served as a Senior Manager at Miami-Dade Area Health Education Center, as a Manager of Clinical Informatics with Tenet Florida Physician services, and as the Health Information Exchange Manager for the South Florida Regional Extension Center.

From 2006-2010, Dr. Sullivan administered the Office of Health Information Exchange in the Florida Agency for Health Care Administration, overseeing development of a statewide health information network and acquiring federal and state grant funding to advance electronic health exchange. He managed the Florida Health Information Network Grants Program, the Florida Medicaid Health Information Network and the e-Prescribe Clearinghouse at www.fhin.net.

Dr. Sullivan is active in national, state and local Health IT associations. He has co-authored white papers for HIMSS, AHIMA and Office of the National Coordinator for Health IT and makes numerous presentations on health information exchange at state and national venues.

Dr. Sullivan serves as adjunct faculty with the Nova Southeastern University College of Osteopathic Medicine Biomedical Informatics Program and with the Florida International University College of Business, MS in Health Informatics & Management Systems. He is a graduate of the University of Washington in Seattle, WA.
